MARK SCHEME for the May/June 2015 series

0452 ACCOUNTING

0452/11

Paper 1, maximum raw mark 120

This mark scheme is published as an aid to teachers and candidates, to indicate the requirements of the examination. It shows the basis on which Examiners were instructed to award marks. It does not indicate the details of the discussions that took place at an Examiners' meeting before marking began, which would have considered the acceptability of alternative answers.

Mark schemes should be read in conjunction with the question paper and the Principal Examiner Report for Teachers.

Cambridge will not enter into discussions about these mark schemes.

Cambridge is publishing the mark schemes for the May/June 2015 series for most Cambridge IGCSE[®], Cambridge International A and AS Level components and some Cambridge O Level components.

® IGCSE is the registered trademark of Cambridge International Examinations.

for (1) mark each

(b) To avoid multiple entries in the ledger (1)

for (1) mark each

Different books of prime entry can be maintained by different people (1) Acts as an aid for posting to the ledger by analysing a transaction into debit and credit entry (1) Helps to reduce the amount of detail in the ledger as only totals are posted to the ledger (1) Provides evidence of transactions since they are recorded from source documents (1) Helps in the auditing/tracking process/facilitates cross-referencing (1) Easy reference to source of a transaction (1) Helps in gathering and summarising of accounting information (1) Groups together similar types of transactions in one book in date order (1) Reduces number of entries in ledger (1)
